

Main Module

The DrugPak Main Module is the heart of the DrugPak Software Suite. This module contains all the tools to administer a drug testing program with ease and efficiency. Although random selections are a core feature of the Main Module, so are complete record keeping, reporting, and management. From a single company to large-scale multiple consortia, the DrugPak Main Module provides an exceptionally flexible design that will fit perfectly into any drug and alcohol testing program. It is well suited for both DOT-mandated testing or drug-free workplace testing.

DrugPak is a program that you'll be delighted to use year after year. Find out for yourself why DrugPak is the premier choice in drug testing management. Call for your free 30-trial version today, or download a trial version from our website at www.drugpak.com. Once you have your free trial, be sure to contact us for a tour of the software. In 30 minutes we'll have you trained on the software and you'll be ready to use it to administer your own drug testing program!

- ☑ Is specifically designed to handle the unique challenges of TPAs, MROs, and drug testing professionals.
- ☑ Has flexible and defensible random selections with detailed audit reports.
- ☑ Has consortium features that make managing companies a snap-- from two companies to thousands.
- ☑ Meets the most stringent DOT reporting requirements, yet flexible and well-suited for non-regulated testing.
- ☑ Includes a complete set of professional-looking reports for all your reporting requirements.
- ☑ There are no extra charges for the amount of data entered. Store unlimited companies, employees, and tests.
- ☑ Includes one year of software updates and unlimited technical support with an experienced and patient staff.
- ☑ Designed, marketed, and supported by the industry's oldest and most trusted software provider for drug and alcohol testing software.

Random selections are flexible enough for virtually any testing situation. You maintain complete control of the number selected by using a percentage or a fixed number. Reports include "Alternates," "Notification Letters," and "Certification Letters." "Program Statistics" report informs you of YTD information such as average pool, number tested, shortages/overages, and tested percentage.

- Print File Lists...
- Consortium List
- "Incomplete Results" Report...
- Result Letters...
- Letter to Prospective Employer...
- Follow-Up Test Schedule/Notifications
- Lab Usage Report
- Collection Site Usage Report
- Summary of Drug Testing...
- Activity Summary...
- DOT MIS Forms
- Reprint Random Selection Audit Trail
- Random Selection Program Statistics

SSN	Selection ID	Name	Occupation	Test For
199-99-9999	441	Arron Bower	CDL	Drugs and Alcohol
777-77-7777	19904	Henry Campbell	CDL	Drugs
255-55-5555	4970	Andy Jackson	CDL	Drugs
111-11-1111	115	Melinda Palmer	CDL	Drugs and Alcohol

The DrugPak Main Module comes with company, lab, collection site, employee, and drug and alcohol result reports plus a number of specially designed reports to meet all of your management needs. Reports come with many options so you can print the information exactly as needed.

All reports have been carefully developed to provide a clear, concise, and professional appearance.

DOT MIS forms include FMCSA, FAA, RSPA, USCG, and FTA. A similar but more flexible statistical report is included for non-regulated reporting.

The screenshot shows the 'Participants' tab in the DrugPak software. The 'Sort Order' is set to 'Alphabetical'. The record for 'Janice Howlover' is displayed with the following details:

- Participant ID: 18
- SSN: 299-99-9999
- Name: Janice Howlover
- Template: Include in Randoms, Terminated
- Home Base: STC- State College, PA
- Occupation: NON- Non-Mandated Worker
- FAA, FMCSA, FRA, FTA, RSPA, USCG: for each
- Pool Group: [Empty]

DrugPak users rave about the simple yet feature-rich design that professionals need. All data entry takes place right on the main screen by clicking on the desired tab. "Hot" buttons give instant access to the most common tasks. "Templates" allow speed entry of data. In short, DrugPak is designed to maximize your efficiency!
